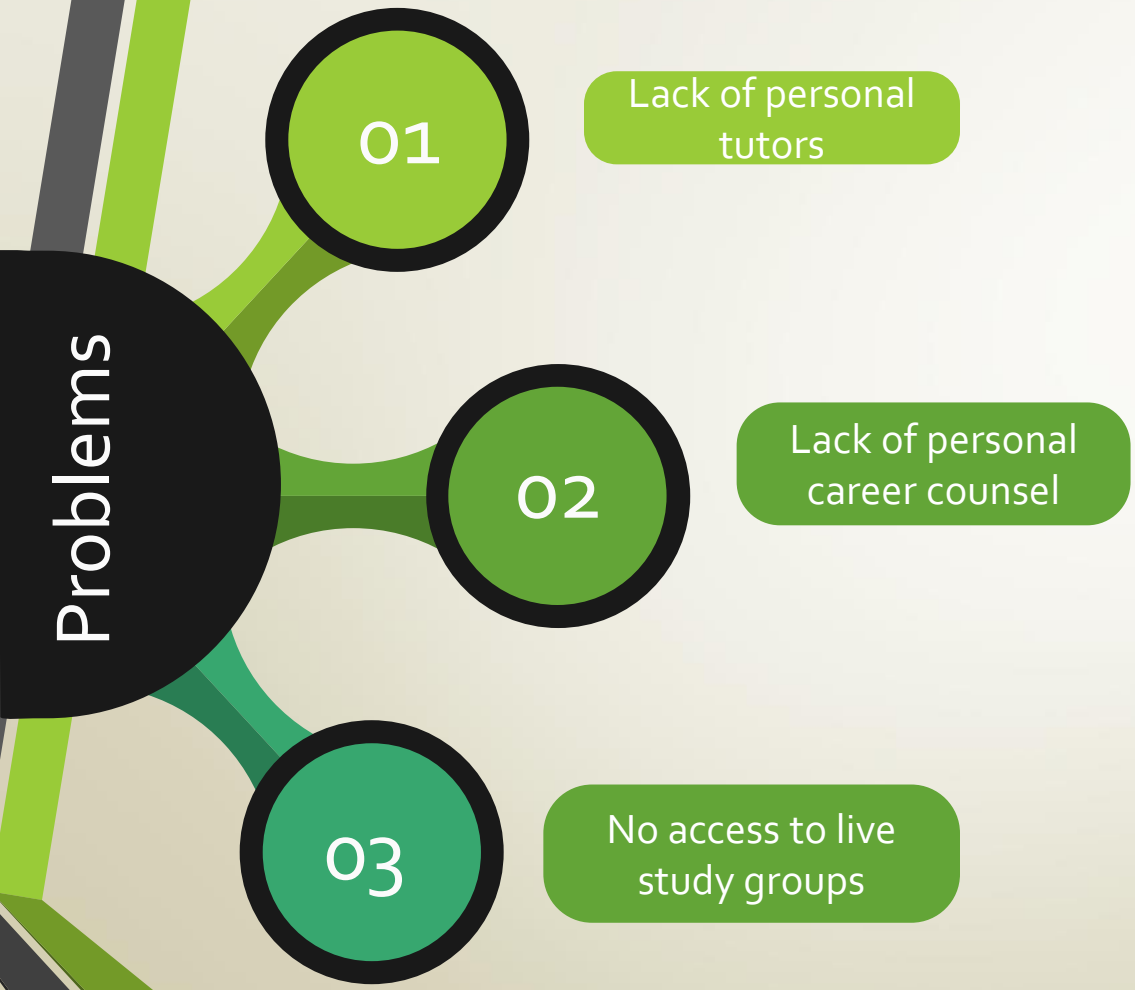
06 Future Implementation



When you install **Vriddhi** on your mobile, these problems are resolved and you can connect to wealth of resources available online and connect with large pool of expert tutors and guides

About us

Owing to COVID crisis schools are closed, there is lack of tutoring, mentoring and study groups. Parents are not in a position or have the relevant capabilities to provide academic support. The private tutorials may not be affordable to most people from rural areas or low-income groups. Additional challenge is the lack of tutoring support in regional languages

Our company is offering a one stop solution by making sure that everyone can get access to quality education ☺

vriddhiforyou@gmail.com

Our Process

Now you can Teach and Learn!

1

Install

Use Apple App store or Google Play store to download the free App.

2

Register

Users are offered to choose from multiple profiles student, teacher or counselor.

3

Avail

Use the app for learning, teaching or guidance.

4

Create community

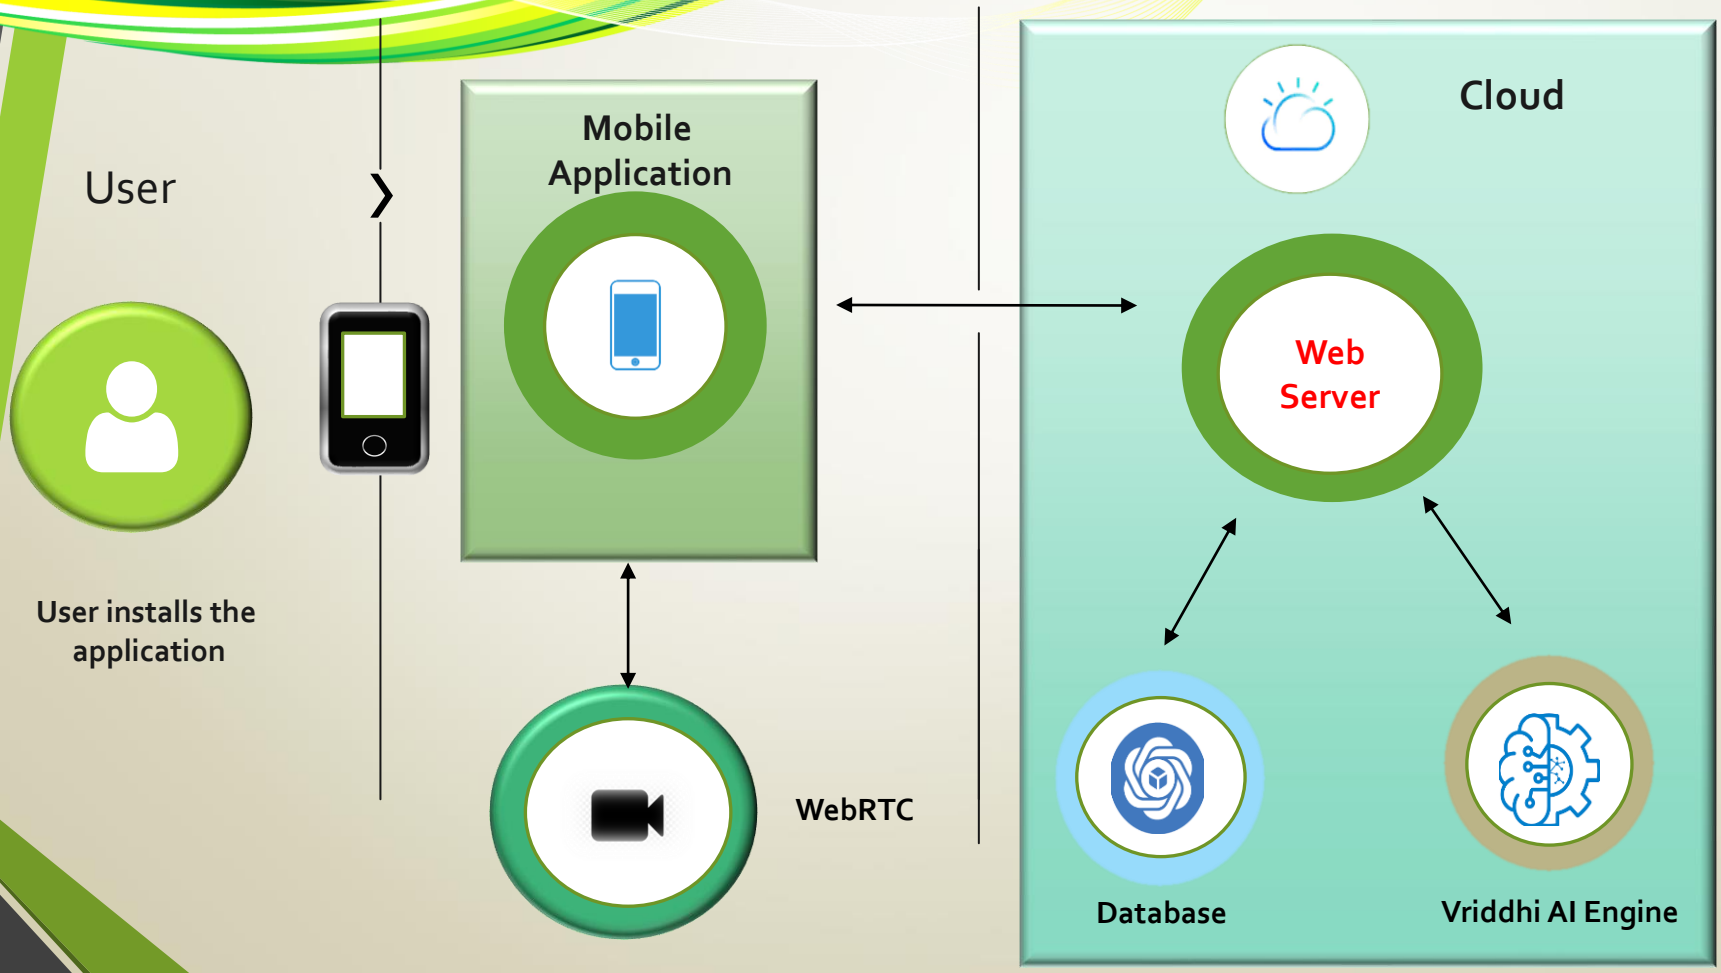
Create community of zealous individuals for expanding your horizon

5

Customer Satisfaction

Ultimately, we assure our customers will be satisfied with the ease of use and experience

Vriddhi – Application Architecture



Cultural Integration

Content	Tutorials	Reviews	Principles
Application content will also be available in regional language	Video tutorials/ instructions on how to use the application	Blogs/ Vlogs/ recordings of the user experience	Ethical Data Privacy Policy

Future Implementation

Here are some of the affirmative steps we would take over the course of time

3 months — **Q1 2021**

PLANNING

As we are constantly innovating for improvement in our technology, we strongly adhere to cater to the needs of a greater audience

BUILDING

With the significant skills and AI implementation in our system, Vriddhi will be set as a differentiator

TRANSFERABILITY

Gradually moving over the pandemic phase, our application will continue to accommodate to the community with enhancements

MEASURE & GROW

After critical evaluation of the growth, Vriddhi will expand to a bigger market.
